

KINSLEY PROPERTIES TO COMPLETE VETERANS ADMINISTRATION SHOWCASE MEDICAL FACILITY

The Veterans Administration has leased 10,000 square feet at Kinsley Properties' Ridgeview Professional Center, to be built out as the V.A.'s showcase medical facility. The V.A. facility will occupy a substantial share of the remaining available space in the Ridgeview complex. The connection between the V.A. and Kinsley Properties was facilitated by Bryan Cole with NAI Keystone.

Ridgeview Professional Center - Reading, PA

The Veterans Administration recently signed a lease with Kinsley Properties for 10,000 square feet at Ridgeview Professional Center in Reading, Pennsylvania.

Ridgeview Professional Center is a three building complex which caters to office and medical tenants. Kinsley Properties looks forward to welcoming the new V.A. outpatient facility, which will occupy a substantial share of the available space remaining in the complex. Many thanks are extended to Bryan Cole of NAI Keystone for facilitating the introductions between Kinsley Properties and the Veterans Administration facilities management team.

The Veterans Administration hopes to execute a space program developed specifically for their needs, encouraging communication between doctors, nurses and patients, while cutting down on patient wait times in an efficient and convenient manner. LSC Design and Kinsley Properties will coordinate with the V.A. to accommodate their unique requirements throughout the design and construction process. The hope is that this facility should serve as a showcase for future outpatient veterans' facilities.

Kinsley Properties looks forward to kick-off of the project in the coming weeks.
